Re: Appln. No. 32164  
Philip Morris Incorporated  
Our File 582-534 Israel

Dear Sirs:

We have received your letter of December 9, 1971  
in which you report the issuance of an action by the Registrar  
in the subject patent application.

Your instructions are not particularly clear in  
respect as to how the specification and drawings are to be  
corrected. For example, the end of the specification in-  
dicates signature should be affixed thereto. Whose signa-  
ture? Further the drawing has a notation that it should be  
corrected in accordance with Regulation 21(c). We have no  
way of knowing what such regulation provides and accordingly  
what information is required.

Please advise us as to precisely what is required  
to be done in connection with this so we may have the necessary  
corrections made and return the documents to you.

Very truly yours,

George J. Brandt, Jr.
